SHOWCASE BH - DROP-IN EN - FOR TRAYS

About

Refrigerated showcase ensure great conditions for storing food and also help to eliminate the food getting out of their quality. The BH Showcase drop-in is designed to be inserted into the worktop.
The lower part is used for euronorm trays, which are at the same level as the worktop. You can choose a variant with one, two or three shelves that are height adjustable. Only service can take out the goods, because the door opens only from the service's side.

Glass from each side of the showcase - designed to display objects through each side.
Suitable for shops or canteens, where customers can see the products inside the showcase.
Made from stainless steel material, so it is easy to clean and guarantees a long-term service life. You can choose to light up a showcase or not.
