

About

Over ventilated tub is used for the circulating of cooled air to keep all products at the ideal temperature. Thanks to free access to your products, the cooling tub allows easier handling for the service. Suitable for slicing a cake and then easy to pick up. It is suitable for restaurants, fast food, hospitals, canteens and many others.

The tub contains a digital defrosting and digital temperature control. The plate can be folded upwards with evaporator - 37° and locked in the top position.

The evaporator is located directly under the plate. Two positions of the plate - straight and inclined (tilts towards the customer (5°). This function is also suitable for better maintenance and service.

Made from stainless steel material, so it is easy to clean and guarantees a long term service life.
