

About

Snack-Genie is used for the circulating of cooled air to keep all products at the ideal temperature. Thanks to free access to your products, the cooling tub allows easier handling for the service.

To clean the tub bottom, the plate (with evaporator) can be folded upwards and locked in the top position. Suitable for slicing a cake and then easy to pick up.

The plate can be folded upwards with evaporator - 38° and locked in the top position.

It is suitable for restaurants, fast food, hospitals, canteens and many others. The tub contains a digital defrosting and digital temperature control.

Made from stainless steel material, so it is easy to clean and guarantees a long term service life.
